saving in labor and field preparation cost

Software interface will be understandable

Balancing the need of devices to ensure the device effectively

For using various smart agricultural gadgets, farmers have gained better control over the process

Suitable for all types of soil

High accuracy of field encryption

TIP
You can select a sticky note and hit the pencil (switch to sketch) icon to start drawing!

TIP
Add customizable tags to sticky notes to make it easier to find, browse, organize, and categorize important ideas as themes within your mural.

Group ideas

Take turns sharing your ideas while clustering similar or related notes as you go. Once all sticky notes have been grouped, give each cluster a sentence-like label. If a cluster is bigger than six sticky notes, try and see if you can break it up into smaller sub-groups.

20 minutes

it includes to increase economic impact

By educating them about the IoT device

Connect skilling interventions to market

To encourage digital and financial inclusivity

It can show the fertility of the land, so farmer can use the required fertilizer

Within a minute it can alert the farmer

It will automatically monitor all the activities of field

High accuracy of field encryption

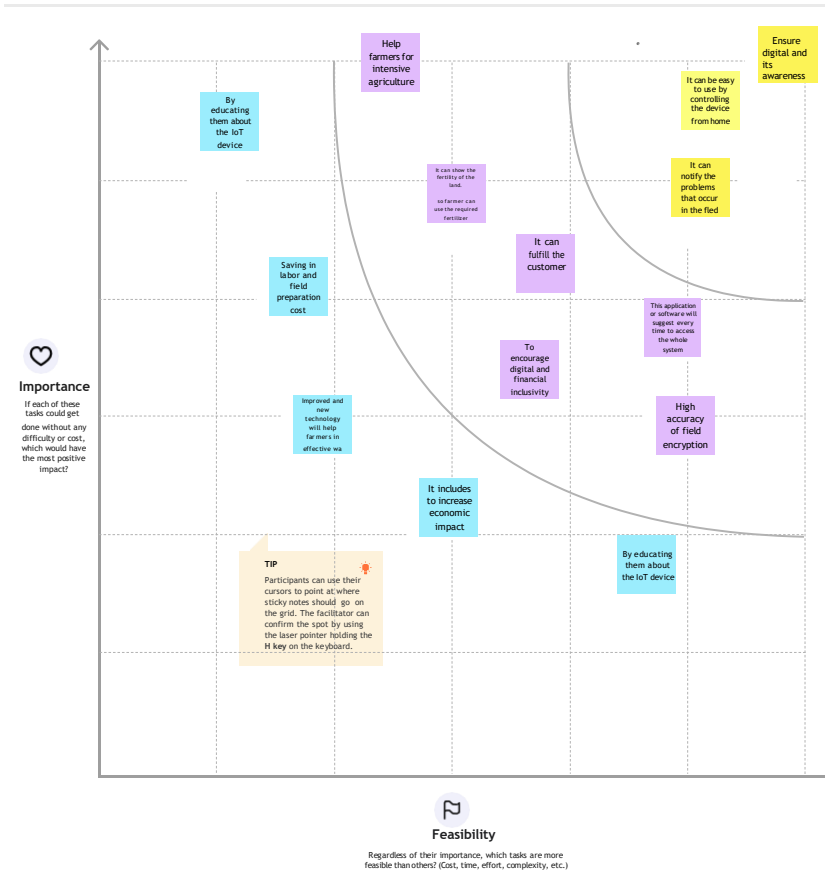

saving in labor and field preparation cost

It can be easy to use by controlling the device from home

Prioritize

Your team should all be on the same page about what's important moving forward. Place your ideas on this grid to determine which ideas are important and which are feasible.

20 minutes

After you collaborate

You can export the mural as an image or pdf to share with members of your company who might find it helpful.

Quick add-ons
